DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The prior art shows a housing movable in a frame track, integral to the window frame and not the sash, a first elastic element, a first pulley block, a second pulley block fixed against movement in the housing, and a cord (Newman et al, Annes et al.). It is noted that in Thompson et al, the housing is mounted in the sash, not the window frame, and does not move along the track, as the housing is fastened in place with a screw. The prior art fails to show a means for braking configured for extension from the second pulley block, or a cam mounted in a second pulley block.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
